# New DDR3 LC SP3000 DDR3 LC DIMM Tester

CST Inc, leading worldwide manufacturer of memory tester and automation is proud to introduce the Stand alone SP3000 DDR3 LC DIMM "Open/Short" Tester designed for detecting assembly faults on DIMM/SODIMM memory.

This SP3000 DDR3 LC tester is specially targeted at the high-volume memory module manufacturers.

The SP3000 DDR3 LC DDR3 Tester is packaged with a standard 240pin DIMM socket for testing the latest PC3-6400, PC3-8500, PC3-10666 and future higher speed DDR3 memory modules.

The SP3000 DDR3 LC DIMM Tester is built with flexible architecture to support DDR3 SODIMM memory module testing with a change of optional adapter.

## SP3000 DDR3 LC Feature

#### Auto Identify:

- Memory Type: 240pin DIMM Unbuffered and RDIMM Memory
- Memory Configuration
- Memory Size
- ECC or Non-ECC

## Fast Speed Assembly Testing

- Uses state-of-the-art DDR-III controller
- Super Fast Assembly Test (1 GB in 20secs)

#### Effective Test Algorithm

- Quick test, checks for assembly faults such as missing VTT Resistors, Clock and incorrect series resistors
- Detail March test, checks for functional failures
- Programming and check SPD
- Fault Focusing pinpoints to faulty chip(s)

#### Ease of Use

- Easy to read LCD display
- 5 Easy Push Button Selection
- Output bad results to printer
- Audible buzzer for pass/fail indication
- Colored LED for Test, Pass and Fail status

### Ez Upgrading

- Firmware upgrade via internet
- Support wide range of test adapters
- Support RoboFlex Handler
- Interface with PC software via RS232 Port
- Universal power supply
